Executives at leading global health institutions participated in GGG+Forum 2016, including Global Fund, Gavi, GHIT Fund, and WHO. Japanese contribution about International Health becomes more various. For example, JICA has launched the Initiative for Food and Nutrition Security in Africa (IFNA) at TICAD VI. In addition, Japanese government has ensured the pledge for Polio and CEPI. Therefore, GGG+Forum 2017 is expected to have more extensive discussion with various actors, such as nutrition improvement, poverty reduction, human security, child health care, women's empowerment and infectious disease control.
